The animal may be released at the end of the time if healthy and free from symptoms of rabies, and by the payment of all costs by the owner. However, if the owner of the animal shall elect immediately upon receipt of notice of need for the confinement by the officer to voluntarily and immediately confine the animal for the required period of time in a veterinary hospital of the owner's choosing, not outside of the county in which this city is located, and provide immediate proof of confinement in the manner as may be required, the owner may do so. (C) *Reclaiming.* All animals conveyed to the pound shall be kept, with humane treatment and sufficient food and water for their comfort, at least 5 regular business days, unless the animal is a dangerous animal as defined under § 91.11 in which case it shall be kept for 7 regular business days or the times specified in § 91.11, and except if the animal is a cruelly-treated animal in which case it shall be kept for 10 regular business days, unless sooner reclaimed by their owners or keepers as provided by this section. If the owner must remove the dog from the pound in order to obtain certificate of vaccination for rabies and distemper, along with payment of all other fees in Section 91.05 \$100 CASH deposit must be made with the City Clerk's office in order for the animal to be released. If within 5 days of releasing the dog, the owner does not provide the city with valid

certificate of vaccination for rabies and distemper shots, the owner will be issued administrative citations on a daily basis, until said certificate is presented and all fees have been paid. In the event the owner does not pay the fees described herein, whenever possible, through due process, the fees will be certified to the property owner's taxes.

(D) *Unclaimed animals.* At the expiration of the times established in division (C) of this section, if the animal has not been reclaimed in accordance with the provisions of this section, the officer appointed to enforce this section may let any person claim the animal by complying with all provisions in this section, or the officer may sell the animal to the University of Minnesota, or cause the animal to be destroyed in a proper and humane manner and shall properly dispose of the remains thereof. Any money collected under this section shall be payable to the City Clerk/Administrator.

(C) *Response to notice of breach.* Within 24 hours of receiving notification of the breach, the permittee shall provide the city with a plan, acceptable to the city, that will cure the breach. ATTACHMENT TO AVON INFRASTRUCTURE OR
CITY OF AVON MANAGED PUBLIC RIGHT OF WAY**

WHEREAS, _____ (hereafter, the "Applicant" or "user") is seeking permission to make an attachment to City of Avon (hereafter, "City") owned infrastructure or collocate small wireless facilities in other locations in City Managed Public Right of Way pursuant to Minnesota Statutes, Sections 237.162 and 237.163, pursuant to Chapter _____ of the Avon Code of Ordinances; and,

WHEREAS, the Applicant is seeking permission to make an attachment to the following City owned infrastructure or collocate small wireless facilities in other locations in City Managed Public Right of Way as described below or in the attached documents:

NOW, THEREFORE, the "Applicant" or "user", and all successors and assigns thereof, agrees to the following:

1. In attaching to City owned infrastructure or locating in a City or County managed public right of way, the Applicant will comply with and be bound by the Avon City Code to the extent not in conflict with Minnesota Statutes, Sections 237.162 and 237.163.
2. In attaching to City owned infrastructure the Applicant shall comply with and assist with the implementation of the policies developed by the Avon Director of Public Works to the extent not in conflict with Minnesota Statutes, Sections 237.162 and 237.163.
3. The Applicant shall, to the extent permitted by law, defend, indemnify and hold

harmless the City, its employees, officers, agents, and contractors

1

against any claim of liability or against any loss of any kind, including compliance with administrative orders and regulations, and specifically including, without limitation, against any claim of liability or loss from personal injury or property damage resulting from or arising out of the presence of Applicant's equipment or other personal property on City managed public right of way or on City property placed within the right of way that is in any way related to or as a part of an attachment to City owned infrastructure and also as to any willful misconduct of the Applicant, its employees, contractors or agents, except to the extent such claims or damages may be due to or caused by the willful misconduct of the City, or its employees, contractors or agents.

4. The Applicant agrees that at its own cost and expense, it will maintain, at all times that it has wireless facilities located in a City right of way pursuant to this Agreement, commercial general liability insurance with limits not less than \$2,000,000 for injury to or death of one or more persons in any one occurrence and \$2,000,000 for damage or destruction to property in any one occurrence. The user shall provide Certificates of Insurance which specifically name The City of Avon as an additional insured.
5. The Applicant waives any liability of the City to the Applicant, or any of its respective agents, representatives, successors or employees for any lost revenue, lost profits, loss of technology, use of rights or services, incidental, punitive, indirect, special or consequential damages, loss of data, or interruption or loss of use of service, even if the City has been advised of the possibility of such damages, whether under theory of contract, tort (including negligence), strict liability or otherwise that is related to, arises out of, flows from or is, in some part, caused by Applicant's attachment to
or use of City owned infrastructure or City managed public right of way.
6. Before receiving approval from Avon Public Works to install an attachment on City owned infrastructure in City managed public right of way the Applicant shall submit to the Director of Public Works (hereafter "Director") or the Director's designee detailed construction plans and drawings for each individual location, together with maps, showing specifically the poles of the City to be used, the number and character of the attachments to be placed on such poles, equipment necessary for the use, proposed replacement of existing poles, any additional pole(s) which may be required and any new installations for transmission conduit, pull boxes, appurtenances and similar. The Director or the Director's designee shall, on

the basis of review of such detailed construction plans and drawings, determine whether to give the user permission to proceed with the work as proposed by the user. Upon application approval, the Applicant shall have permission to use the premises and make attachments in accordance with the terms of the application, this policy, the Avon City Code and Minnesota Statutes, Sections 237.162 and 237.163. The Applicant shall perform all work at its own expense and make attachments in such manner as to not interfere with the services of the City.

7. Any infrastructure approved by the Director to be used/purchased by the Applicant to facilitate the attachment of Applicant's equipment shall be the property of the City and shall not entitle the Applicant to ownership of such infrastructure.
8. The Applicant must obtain and submit to the Director or the Director's designee a structural engineering study carried out by a qualified structural engineer showing that the pole(s) and foundation(s) is (are) able to support the proposed attachment.
9. In the event that the attachment poses an immediate threat of substantial harm or damage to the health, safety and welfare of the public, City Employees and/or property/premises, as reasonably determined by the City, the City may take actions the City determines are reasonably required to protect, the health, safety and welfare of the Public, or personal property of the Public, from such jeopardy provided that after such emergency access onto the Premises, and in no event later than twenty-four (24) hours after such access, the City gives notice to user of City's emergency access. If the City reasonably determines that these conditions would be improved by cessation of user's operations, the user shall immediately cease its operations on the Premises upon notice from the Director or the Director's Designee.
10. Any damage to the City's infrastructure, the City's equipment thereon or any element of the City managed public right of way caused by the user's installation or operations shall be repaired or replaced at user's expense and to the Director's reasonable satisfaction.
11. The Applicant shall obtain from the City, any and all permits required for a complete installation. These permits include, but are not limited to: Obstruction/Excavation, Meter Hooding, Storm Water, etc. Applicable fees

for any permits shall be borne by the user. The user shall be bound by the requirements of each permit.

12. The City will take those actions it determines are reasonably necessary, to repair, maintain, alter, or improve the Premises in connection with user's Operations.
13. Upon request from the City, the user shall disconnect the power to the user's pole attachment within eight (8) hours of such request to facilitate any maintenance or repair work to the pole or City attached infrastructure. After eight (8) hours or immediately after an emergency, the City reserves the right to disconnect the power to the user's attachment.
14. Except in cases of emergency, prior to commencing work on City Owned Infrastructure with an attachment, the City will provide user with 24 hour prior notice thereof. Upon receiving such notice; it shall be the sole responsibility of the user to take adequate measures to remove or otherwise protect user's Facilities from the consequences of such activities. If reasonably necessary, the City may require user to remove or power down any Attachments during the work.
15. User shall maintain the Attachment in good and safe condition, at its own cost and expense, and in compliance with applicable fire, health, building, and other life safety codes.
16. Notwithstanding anything to the contrary contained herein, the user shall have the right to terminate user's occupancy provided that 30 days prior notice is given to the City.
17. User agrees to and shall install equipment of the type and frequency which will not cause harmful interference to any equipment of the City or other users of the Premises which existed or have been permitted on the Premises prior to the date the attachment permit was acquired by the user. In the event the City reasonably determines user's equipment causes such interference, user will remove the equipment. It is the user's responsibility to confirm and appropriately test that their equipment will not cause harmful interference before pursuing approval from the City.
18. If required by the Director, the user shall obtain a radio frequency interference study carried out by an independent professional radio

frequency engineer ("RF Engineer") showing that the user's intended use will not interfere with the City's licensed and unlicensed communications facilities, which are located on or near the structure. The user shall not transmit or receive radio waves at the Premises until such evaluation has been satisfactorily completed and approved.

19. The user shall implement all measures at the transmission site required by FCC regulations. In the event the user causes the site to exceed FCC Radio Frequency radiation limits, as measured on the Premises, or otherwise violate FCC standards, the user shall be liable for all such non-compliance and shall defend, indemnify and hold the City harmless from all claims arising from non-compliance.
20. In the event of damage to the City Owned Infrastructure or Premises that cannot reasonably be expected to be repaired within forty-five (45) days following same or, if the City Owned Infrastructure is damaged so that such damage may reasonably be expected to disrupt the user's operations at the Premises for more than forty-five (45) days, then the user may, at any time following such casualty, provided the City has not completed the restoration required to permit the user to resume its operation at the Premises, terminate upon fifteen (15) days prior written notice to the City as to such location. With any such notice of termination the Parties shall make an appropriate adjustment, as of such termination date, with respect to payments due. Notwithstanding the foregoing, the rent shall abate during the period of repair following such casualty in proportion to the degree to which the user's use of the Premises is impaired. The City is not liable for any damage to attachment(s) due to an event of damage to the pole or premises.
21. The City will recover its right-of-way management costs from the Applicant by imposing a fee for registration, a fee for each right-of-way or small wireless facility permit, or, when appropriate, a fee applicable to Applicant when that Applicant causes the City or affiliated agencies to incur costs as a result of actions or inactions of Applicant.
22. Fees, or other right-of-way obligations, imposed by the City on this Applicant shall be:
 - (1) based on the actual costs incurred by the City and affiliated agencies in managing the public right-of-way;

- (2) based on an allocation among all users of the public right-of-way, including the City itself and affiliated agencies, which shall reflect the proportionate costs imposed on the City and affiliated agencies by each of the various types of uses of the public rights-of-way;
 - (3) imposed on a competitively neutral basis; and
 - (4) imposed in a manner so that aboveground uses of public rights-of-way do not bear costs incurred by the City and affiliated agencies to regulate underground uses of public rights-of-way.
23. Any initial engineering survey and preparatory construction work associated with an attachment and/or collocation will be paid by the Applicant in the form of a onetime, nonrecurring, commercially reasonable, nondiscriminatory, and competitively neutral charge to recover the costs associated with the proposed attachment.
24. Total application fees for a small wireless facility permit shall comply with Minnesota Statutes, Section 237.163, Subdivision 6 with respect to costs related to the permit.
25. The Applicant will be charged a fee for each small wireless facility attached to a wireless support structure owned by the City or affiliated agency consisting of:
 - (1) \$150 per year for rent to occupy space on a City wireless support structure;
 - (2) \$25 per year for maintenance associated with the space occupied on a City wireless support structure; and
 - (3) a fee on a monthly basis for electricity used to operate a small wireless facility, if not purchased directly from a utility and if the City has electricity available on the support structure, at the rate of:
 - (i) \$73 per month per radio node less than or equal to 100 max watts;
 - (ii) \$182 per month per radio node over 100 max watts; or

- (iii) the actual costs of electricity as reasonably estimated by the Director or designee, if the actual costs exceed the amount in item (i) or (ii).

This fee is in addition to other fees or charges allowed under Minnesota Statutes, Section 237.163, Subdivision 6.

26. The City shall have the right at any time to replace or relocate any wireless pole or structure containing the user's wireless facilities. The Director shall give the user 30 days notice prior to requiring the user to remove its wireless facilities prior to the relocation of the structure (except in the case of an emergency, in which case the City shall give reasonable notice in light of the nature of the emergency). In such event, the user shall remove its wireless facilities at the user's sole cost within the time required by the Director. Upon completion of the relocation of such structure, the user shall have the right to reinstall its wireless equipment on the relocated structure, provided the installation of such equipment meets all requirements of City Code and of this Agreement. In the event the user fails to remove its wireless facilities within the time required by the Director, the City shall be permitted to remove the wireless facilities and dispose of such facilities by any means available, provided, however, that in the event of an emergency, the City shall hold such wireless facilities for a minimum of 30 days before disposing of such wireless facilities. All costs incurred by the City in removing and disposing of such wireless facilities shall be reimbursed by the user within 30 days of the City sending an invoice to the user for such costs.

27. The Director or his designee may immediately suspend the permission of a user to make new or additional attachments or maintain existing attachments if the user materially fails to comply with the terms of its permit if the city provides written notice to the user of such failure to comply. If the user fails to cure the default on or before the thirtieth day after receipt of the notice, the City may terminate the user's permit.

- (1) A user shall immediately begin removal of its attachments after termination of a user's permit for violations of the terms the permit. Unless the Director grants an extension of time, a user must remove all attachments not later than the sixtieth day after the effective date of termination.

- (2) After termination of a user's permit, the user must comply with the terms of

this Agreement until all attachments are removed.

All notices hereunder must be in writing and shall be deemed validly given if sent by certified mail, return receipt requested or by commercial courier, provided the courier's regular business is delivery service and provided further that it guarantees delivery to the addressee by the end of the next business day following the courier's receipt from the sender. Notice shall be effective upon actual receipt or refusal as shown on the receipt obtained pursuant to the foregoing.
